

DOWNLOADING & INSTALLING ALL HIRE MOBILE DEMO

Click the link below on your device (you will need to be connected to the internet, either directly using mobile data, or via wifi).

You will then be directed to this page, select “Click here to trial”

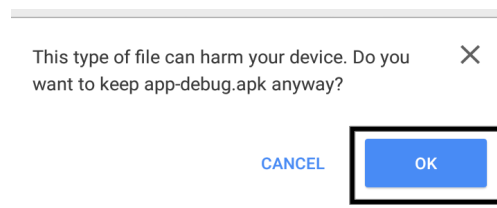

all Hire mobile Event Hi

Full all Hire system on your Andrc
in the office or on the cloud

[Click here to trial](#)

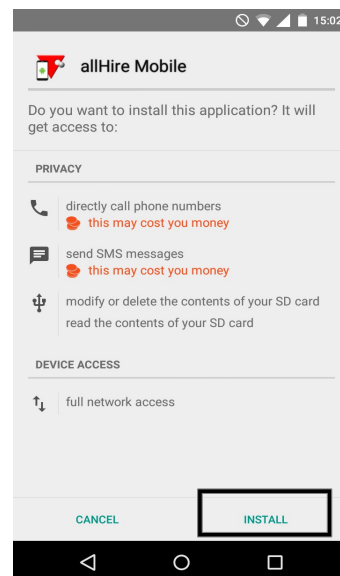

Once you have selected that, this window will appear, select “OK” to proceed with the download :

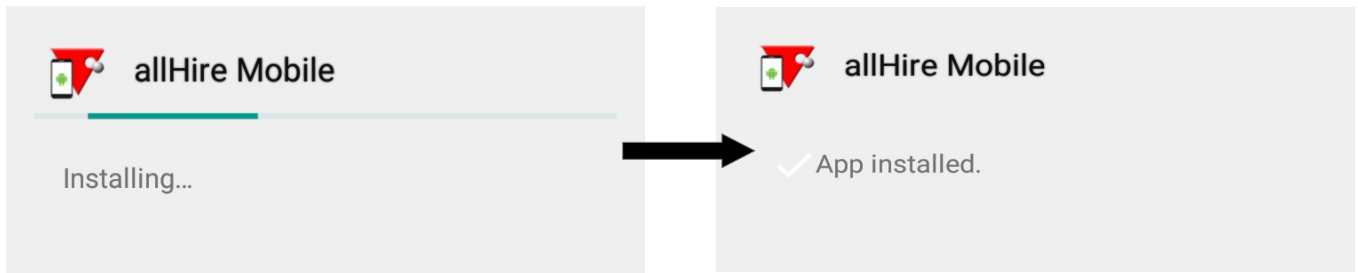

The download will now proceed, the install may automatically start but if it doesn't then select the Downloads (vertical arrow) at the top of the screen and choose all Hire Mobile.

This screen will then appear :

Select “Install”

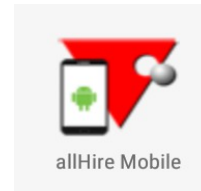

The installation will then automatically start, wait a few minutes for it to finish :

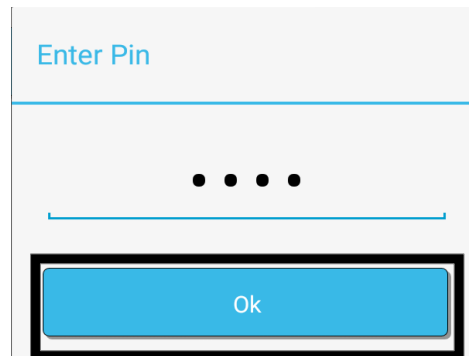

During the download, a message may appear from Google, asking for authorisation to access your device. Please be aware that if you select “Decline”, the download may stop, so we advise that you ignore this window until the download has finished.

The App will then add an icon to your home page :

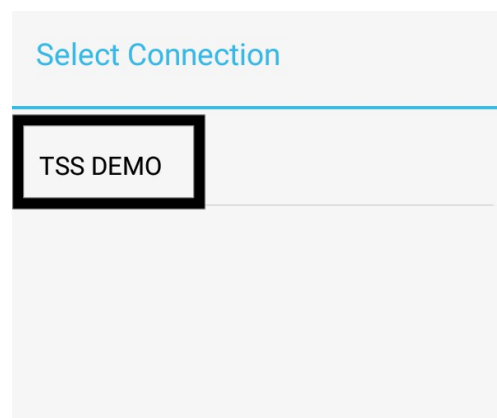

Once you click on this icon, this screen will appear :

Select “OK”

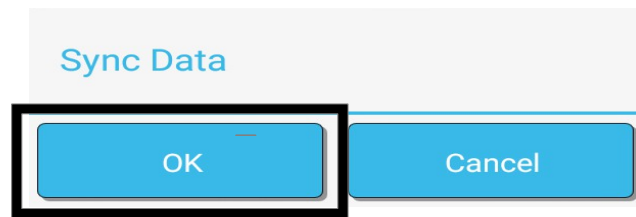

You can now continue to this screen :

Select “TSS DEMO”

Select “OK” to sync data :

This will then sync your data :

You will then be directed to this screen and can explore the App in full :
